

TRUTH

stable, literally "wipe the earth" in Utah with the dishonest, immoral, un-American Kearns gang.

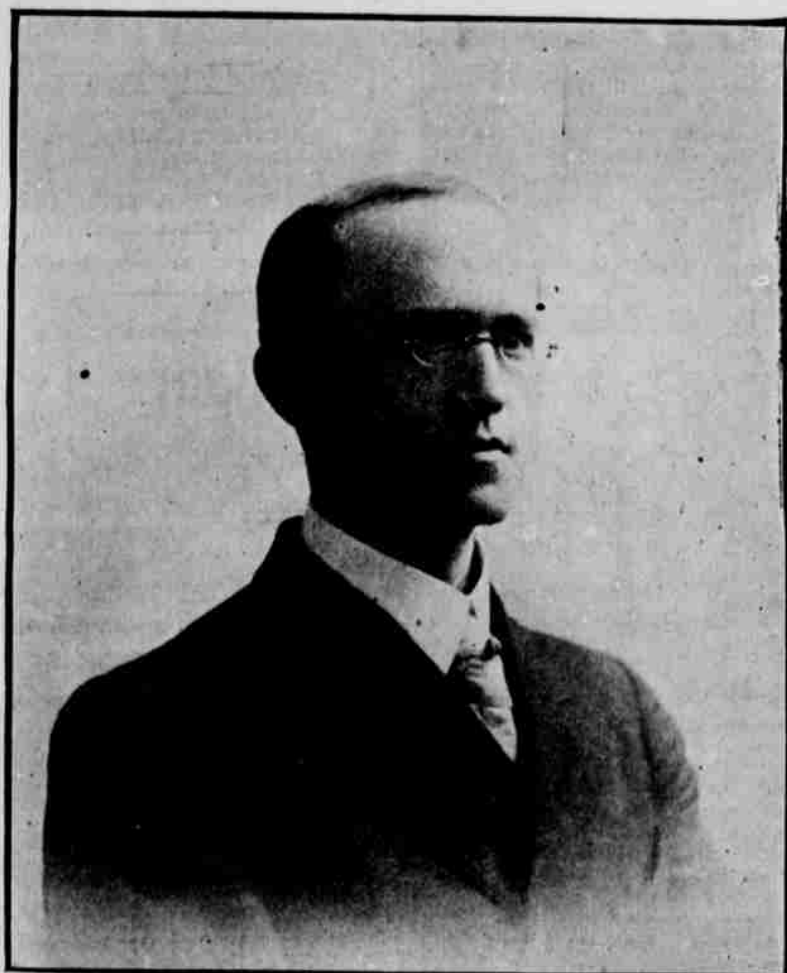

And remember this: The only way to do that safely and well is to elect the republican ticket in Salt Lake county next November.

Truth hands you a square deal. You cannot get away from the facts here presented, for they are facts.

The Tribune, the organ of the thieves and bunco men, is greatly displeased at the arrest of Jim Donaldson, charged with robbing two Scotchmen of \$10,000. The organ is also very angry because Sheriff Emery is trying to apprehend the confederates of Donaldson. The spectacle of a so-called great newspaper openly defending thieves, robbers and murderous holdup is unusual to say the least. Donaldson is likely to prove a damaging witness against the Tribune's chief of police and it would not be surprising if the Tribune was brought into the case on the charge of compounding a felony.

The friends of Julian Riley are congratulating him on the confirmation of his appointment as deputy United States marshal. The appointment was made months ago by United States Marshal Spry, but the confirmation was delayed on account of the usual vicious and fool opposition raised by the Kearns gang. The gang has opposed every Federal appointment to the last ditch, but in every case their opposition counted for nothing. They only succeeded in making themselves ridiculous and showing their malice. Mr. Riley is a life-long republican, an ardent worker for the party and is a capable, trustworthy and sterling man. He will without doubt make a good official.

The republican county committee made a wise choice in selecting James E. Clinton to take the place of A. W. Carlson, resigned, as one of the candidates for county commissioner. Mr. Clinton is a thorough business man, as honest as the day and will be a vote getter.

BRYANT S. YOUNG

Candidate on the Republican Ticket for the Lower House of the Legislature.

Bryant S. Young is a young newspaper man of ability and good standing both in his profession and with the general public. He is a candidate on the Republican ticket for election to the lower house of the legislature.

His intelligence and conceded ability make him a desirable man to have in the legislative halls. He is bright and affable and has the knack of making friends and will run well at the polls.

WASATCH ROLLER SKATING RINK.

What promises to be one of the most fashionable amusement places of the city, the Wasatch roller skating rink, was opened on Thursday evening at the Agricultural park. It is the most perfectly appointed place of the kind in the west and will be conducted in a thoroughly respectable manner. Its patrons are among the foremost society people in the city.

Incubator Babies.

In a few years from now we will be hearing of reunions of people who once were incubator babies.

Hothouse Thoughts.

There are hothouse thoughts—beautiful but tasteless.—Life.

Few Timepieces in Abyssinia.

As regards timepieces, the Abyssinian market has been practically neglected. It has not yet become a fashion among the natives to carry watches, and what few clocks are seen in the local shops are chiefly of the cheap alarm type, in nickel, and of German, French, Belgian or American origin. Gold and silver watches are scarcely to be found anywhere.—Horological Review.

Finger Rings Not for Police.

The Southport (England) police of all ranks have been forbidden to wear finger rings while on duty.

Slow March of Music.

It takes time for some operas to come to England, but Gluck's "Armide," beloved of Marie Antoinette, probably establishes a record in this respect. To be exact, "Armide"—produced at Covent Garden last night—has taken 120 years to reach our shores since its initial production in Paris.—London Daily Mail.

Lightning Always from Clouds.

Many photographs of lightning taken in the Transvaal show that, in all cases, the discharges were from cloud to cloud, or from the clouds to the earth. Nothing was discovered which indicated that the lightning was ever from the earth to the clouds.
